PROJECTS

Amazon Clone

- Watched a YouTube video and learnt how to code my first website clone.
- Got to learn alot about all the concepts of HTML and CSS and brushed up my skills.

Spotify Clone

- Learnt how to design a music playing app and coded Spotify's clone. I used HTML , CSS and JavaScript and finished the journey of learning all the concepts of HTML, CSS and JavaScript.

Fashion Website

- Self coded a fashion website using my coding and design skills. I used bootstrap for some elements of the website.

Various Sample projects using Figma

- I have made various projects like furniture app, finance app, food delivery app and many more to enhance my skills and add them to my portfolio.
