PROJECTS

Wanderlust (Hotel booking app)

- A full stack project concluding all the skills that I learnt in my course.
- Tech used- MongoDb, ExpressJs, NodeJs, Bootstrap
- Implemented CRUD operations and MVC framework.

Portfolio Website

- Brushed up my React skills by building a Personal Portfolio site.

Netflix Clone

- Tech used- HTML, CSS, JavaScript.
- Used the TMDB API to fetch the trending movies and YouTube API for the movies' trailers.

Various small projects

- Built Music playing app & Simon Says game using HTML, CSS & Javascript.
- Built Amazon clone & shopping site using HTML & CSS.
- Built Weather app with React and weather API.

UI Designs using Figma

- I have made various projects like furniture app, finance app, food delivery app and many more to enhance my skills and add them to my portfolio.

Leveza Food Product Website

- Designed a responsive website for LEVEZA a food product company.
